## Fencing

## Gates and Hardware

## Gates.

Our gates are hand-crafted from both cedar-split rail posts and our hand-split pickets. We offer the aforementioned in four sizes in 2-tail and 3-rail.

## Hardware

To help compliment our gates, we have recently added gate hardware. Our gate hardware includes hinges, a double-ring latch, and, for larger livestock, we offer a load-bearing latch. The combination of our gates and hardware complete any 2rail or 3-rail cedar-split rail fence project.
